

The Wide World Over

THERMOS PLANTS

THERMOS FACTORY, HUNTINGTON, W.VA., U.S.A.

—Running day and night we have never been able to supply the demand for **THERMOS** products. The brick and mortar assembled necessary to the effort to fill the demand of the peoples of all countries are a fitting testimony to **THERMOS** merit.

This Company and its subsidiaries, the founders of the vacuum bottle industry, produced a temperature retaining vessel for the first time in the history of the world.

THERMOS is the only distinctive improvement in bottles since the invention of glass. A discriminating health-loving public demands sanitary glass containers. **THERMOS** is both a glass container and glass maintainer of temperature for food products.

Metal bottles employing a filling between the walls are not vacuum bottles and cannot possess the efficiency of **THERMOS**.

The twenty-five million users of **THERMOS** vessels bought them for the reason that **THERMOS** does something that was never done before.

Every man, woman and child who knows that **THERMOS** will keep its contents hot or cold, wants **THERMOS** throughout every hour of the day and night, from the cradle to old age, at work or at play, in health or in sickness, in or away from home, on land or at sea, in the mines beneath the Earth's surface, or in the aeroplane in the clouds above.

The name **THERMOS** is a trade name, copyrighted as the sole and exclusive trademark of the **THERMOS COMPANIES**, and is comprised of the same letters constituting the greatest name in the world—**M-O-T-H-E-R-S**.

These letters rearranged gave us our name—**THERMOS**

As a gift suggestion nothing could be more appropriate than:

THERMOS for MOTHER'S birthday.
THERMOS for MOTHER'S wedding anniversary.
THERMOS for MOTHER'S Christmas.

THERMOS in MOTHER'S hands will add to the comfort and happiness of all MOTHER'S household. Many inefficient vacuum bottles and fillers sold as **THERMOS** are not **THERMOS**. For your protection and ours look for the name **THERMOS** plainly stamped on the metal case, and on the glass filler.

THERMOS products awarded Grand Prize at all International Expositions held since the issuance of **THERMOS** basic patent.
